Small and medium-scale businesses were estimated to contribute up to 62 percent of employment and comprise more than 90 percent of all businesses in the Philippines. However, they received only 9.2 percent of loans and financing from the country’s major banks. The number of registered businesses in the Philippines was 1.42 million as of May 2019.¹

Due to restraints to capital and funding sources, microenterprises resort to usurious lenders or so-called “5-6” that imposes interest rate of twenty percent (20%) daily, weekly or monthly. Most of these lenders are unregistered, without license, and don’t pay taxes. Conservative estimates report that “5-6” is at least a P30 billion industry.

Indeed, addressing restraints to capital and funding sources of microenterprises will be a key ingredient of growth. Following the directive of President Rodrigo Roa Duterte to replace the “5-6” money lending system and provide an affordable micro-financing for the country’s micro, small and medium enterprises (MSMEs), the Department of Trade and Industry (DTI) launched the Pondo sa Pagbabago at Pag-asenso (P3) program in April 2017. As of July 2019, the total loans disbursed to micro-entrepreneurs under the P3 program stood at P2.9 billion.²

The bill calls for the institutionalization of Pondo sa Pagbabago at Pag-asenso (P3) to provide micro enterprises a better alternative of financing, thereby giving our small entrepreneurs a chance to participate in the country’s development efforts.

In view of the foregoing, the immediate enactment and approval of this bill is earnestly sought.
