EXPLANATORY NOTE

Teachers in rural areas, particularly those assigned in the remotest communities of the country, face significant challenges. For these teachers, the deficiency of educational facilities and materials is only one of their problems; they too have to brave hazardous natural conditions, rebel threats, and isolation from their families just to fulfill their sworn duty.

Bearing in mind these harsh realities, it comes as no surprise that many of our rural teachers leave for better teaching opportunities elsewhere or leave their profession altogether. The end result of which is the increased shortage of teachers in rural communities where, this representation is convinced, they are needed the most. Without teachers to guide and develop the potentials of children in these impoverished rural areas, it is not only the children that are deprived of a future, but their communities as well.

It is therefore necessary to provide incentives to our teachers in order to retain their much needed services and to provide adequate compensation for the perils they face daily. Under this Act, the Department of Education shall award salary bonuses to highly competitive teachers in rural areas.

This Act shall not be construed as a permanent solution to the woes of our rural teachers, rather it shall be taken as a temporary panacea while the government is yet to fully execute its development plans for our education system.

In view of the foregoing, approval of this bill is earnestly sought.

Rep. Ramon V. Guico III
