Section 2 of Republic Act No. 7607, otherwise known as “Magna Carta for Small Farmers” provides that:

“It is the declared policy of the State to give the highest priority to the development of agriculture such that equitable distribution of benefits and opportunities is realized through the empowerment of small farmers. While the State recognizes the fact that the welfare and development of the small farmers is their primordial responsibility, the State shall provide the necessary support mechanism towards the attainment of their socioeconomic endeavors.”

The Philippine Rice Research Institute in its report entitled “Competitiveness of Philippine Rice in Asia” states that the annual rice yield per hectare in Philippines is at 9.52 tons, which is the second lowest in Asia. During the second quarter of 2019, the Philippine Statistics Authority (PSA) recorded a 5.82% decrease in palay production, while in terms of crop production, a 5.70% drop was recorded.\(^1\) At current prices, the value of crops production amounted to P215.5 billion or 11.09 % lower this period compared to the first three months of 2019. From the first quarter of the year until June, a 3.16% reduction in crops production was recorded.\(^2\)

---

\(^2\) Id.
The unceasing decrease in the price of rice in the country has also been a continuous problem for small scale Filipino farmers and farm owners. Currently, the price of palay is at an all-time low. Due to this, small-scale Filipino farmers are having difficulties in providing for their families. The plummeting price of rice in the country continues to aggravate the miserable plight of Filipino farmers. By exempting such farm owners from payment of property tax, their financial burden resulting from the plummeting price of rice in the country will be alleviated.

In view of the foregoing, the approval of this bill is earnestly sought.
