
EXPLANATORY NOTE

As a manifestation of support to this timely piece of legislation, this representation respectfully refiles this bill, which has constantly been receiving support from the past congress.

The prepaid call cards industry in the country has seen a significant growth in recent years. From being only available in large denominations, prepaid cards and electronic loads can now be purchased in smaller values. Despite the various efforts to ensure that mobile usage is easily accessible in the country, much more needs to be done.

The proposed measure aims to make the imposition of expiration periods on the validity of period load and forfeiture of unused credits prohibited acts with corresponding penalties to ensure that consumers' money are put to good and maximum use.

In view of the foregoing, the passage of this measure is earnestly sought.
