EXPLANATORY NOTE

This bill intends to be a counterpart version of Senate Bill No. 513 entitled “An Act Strengthening the Drug Abuse Prevention, Treatment, and Rehabilitation, Amending for the Purpose Republic Act No. 9165, Otherwise Known as ‘The Comprehensive Dangerous Drugs Act of 2002’ as Amended, and Appropriating Funds Therefor” as authored by the Sen. Ronald “Bato” Dela Rosa.

This measure is pursuant to Section 15, Article II of the 1987 Constitution which provides that the State shall protect and promote the right to health of the people and instill health consciousness among them. Moreover, Section 11 of the same Article states that the State values the dignity of every human person and guarantees full respect for human rights.

In the Philippines, human rights groups and health advocates alike have expressed concerns on the conduct of the crackdown on alleged drug personalities. The 2016 United Nations General Assembly Special Session on drugs (UNGASS 2016) has recognized “drug addiction as a complex multifactorial health disorder characterized by chronic and relapsing nature” that is preventable and treatable and not the result of moral failure or a criminal behavior.

Towards the realization of drug addiction as a health issue rather than as a criminal one, this bill adopts a more integrated and comprehensive approach to drug abuse prevention, treatment, and rehabilitation. This measure includes the referral of persons who use drugs to an appropriate drug treatment and rehabilitation program. In light of this, the recommendation of a qualified DOH-accredited physician will determine the treatment for persons who use drugs.
Further, this bill ensures that drug users who voluntarily submit to authorities is given the chance for treatment and rehabilitation provided for by a trained health service provider. The health service shall include the after-care and follow up treatment. This bill also provides for the establishment of residential and non-residential centers to expand the options available for those who need treatment.

Lastly, this bill creates the Bureau on Drug Abuse Prevention and Control under the Department of Health in order to centralize all of the Department’s functions concerning drug prevention, treatment, and rehabilitation. Under this Bureau, the Director shall promote evidence and rights-based approach in the provision of treatment and rehabilitation services.

In view of the foregoing, the immediate passage of this bill is earnestly sought.
