AZ Communications Network Inc. (AZCOM) was founded in April 1988 as alternative service provider in telecommunications. In 1995, Congress granted AZCOM a franchise to construct, establish, install, operate and maintain, for commercial purposes and in the public interest, radiotelegraph and/or radiotelephone communication stations, with corresponding relay stations in the inter-island, maritime, aeronautical and international public services, both national and/or international, to provide radio communication services and equipment to private firms, companies and corporations within their respective internal frame, and/or to communicate from within the grantee’s station or stations under Republic Act No. 8165.

It has a flexible flat organization structure with highly skilled and experienced professionals from the telecommunications industry. It is a data communication provider that has the necessary expertise to provide and implement telecommunication solutions and offer internet services and data connectivity to small and medium enterprises (SME) and government organizations. AZCOM has been given Provisional authority by the National Telecommunications Commission (NTC) to operate in 116 municipalities. In the course of its operations, it has implemented the following services and technologies: Local Multipoint Distribution System (LMDS), Wireless Local Loop (WLL), Very Small Aperture Terminal (VSAT), Very High Frequency (VHF) and Ultra High Frequency (UHF) Microwave Radios, Satellite Uplink Facilities.

AZCOM has been striving to provide Internet access in remote areas therefore increasing internet penetration and is focused on delivering communication to underserved communities in the provinces. This is in line with the government’s policy for economic inclusion for all citizens.

AZCOM also provides a long list of information technology services to the Filipino people, especially in those areas which are underserved and neglected. They have bigger plans in store for the benefit of the Philippines and the Filipino people which is why it is imperative that their franchise, expiring in September 2020, be renewed.

In view of the foregoing, immediate approval of this measure is earnestly requested.
