EXPLANATORY NOTE

Article XIV, Section 1 of the 1987 Constitution states that, “The State shall protect and promote the right of all citizens to quality education at all levels, and shall take appropriate steps to make such education accessible to all”. The State recognizes the vital role of quality education in nation-building through the creation of a more responsible, skilled and literate citizenry. To achieve such ends, the State must ensure that existing facilities and learning spaces that are used by our young learners are conducive to quality learning.

The Department of Education (DepEd) report¹ that School Year 2017-2018, the teacher-student ratio is 1:31 for the elementary level, 1:36 for Junior High School level, and 1:31 for Senior High School level. Having large number of students per teacher has a massive effect on the quality education that supposedly each student is given an equal time to meet the required competitive education.

This bill seeks to institutionalize an ideal class size of not more than 30 students. Any class exceeding 30 students up to a maximum of 45 students shall be a large class and prohibits class size of more than 45 students. Teachers of large classes shall receive additional compensation equivalent to five (5%) percent of their daily rate.

In view of the foregoing, immediate passage of the bill is earnestly sought.
