EXPLANATORY NOTE

Article II, Section 16 of the Philippine Constitution provides, "The State shall protect and advance the right of the people to a balanced and healthful ecology in accord with the rhythm and harmony of nature." Further, Article XII, Section 2 of our Constitution mandates the State to protect the nation’s marine wealth in its archipelagic waters, territorial sea and exclusive economic zone and reserve its use and enjoyment exclusively for Filipino citizens.

Pag-Asa Island is an island-barangay and the political seat of power of Palawan’s Municipality of Kalayaan. It is situated in the West Philippine Sea and is located west of Palawan. The Municipality of Kalayaan covers an approximate area of sixty-four thousand nine hundred seventy six (64,976) square miles of water and total land area of two hundred ninety (290) square kilometers. Based on NAMRIA, there are a total of ninety five (95) islands, cays, shoals and reefs within the area covered by PD 1596.

The Kalayaan Island Group is endowed with rich and diverse natural resources, most especially its marine ecosystem. Recent study shows that the waters around Pag-Asa remains a potential fishery ground, in terms of fishery resources, and offers superb diving environment, which is worthy of conservation in order to sustain the long term benefit that we are supposed to gain from it.

In recognition of the importance that the Pag-Asa Island and its adjoining islands of Parola, Kota, and Panata provide with regard to biodiversity in the Municipality of Kalayaan in Palawan, this proposed measure seeks to declare the aforementioned areas as an ecological tourism area. This bill creates the Pag-Asa Island Ecotourism Cluster Governing Board which shall rationalize all efforts pertaining to environmental protection and making the tourism industry a major source of livelihood and an avenue for the generation of employment.

For the foregoing reasons, the expeditious approval of this bill is earnestly requested.
