HOUSE BILL NO. 6037

Introduced by HONORABLE STELLA LUZ A. QUIMBO

AN ACT INSTITUTIONALIZING A TEN PERCENT BUDGETARY ALLOCATION OF BARANGAYS FOR THE IMPLEMENTATION OF PROGRAMS, PROJECTS, ACTIVITIES, AND SERVICES FOR SENIOR CITIZENS, AMENDING FOR THIS PURPOSE THE PERTINENT PROVISIONS OF REPUBLIC ACT NO. 7160 OTHERWISE KNOWN AS THE "LOCAL GOVERNMENT CODE" AND FOR OTHER PURPOSES

EXPLANATORY NOTE

Based on the Census of Population and Housing Report, there are approximately 7.55 million senior citizens in the Philippines as of 2015, making up 7.4 percent of the population. A study by the Philippine Institute for Development Studies estimates that this proportion will increase to 11.4 percent by 2030 and 15.9 percent by 2045. These numbers underscore the significance of implementing programs and projects for our senior citizens.

Senior citizens continue to engage in economic activity, even in their old age. According to the 2016 Labor Force Survey (LFS), 45 percent of senior citizens reported to be employed, and hence, continue to contribute to nation-building. Moreover, within Filipino families, senior citizens provide childcare, an important factor contributing to labor force participation by younger individuals. Grandparents often taking on the responsibility of childcare frees up other family members for outside work without compromising child welfare. According to the 2016 LFS, 22 percent of households with members who are OFWs are headed by senior citizens and have children left behind. This suggests senior citizens provide critically needed child care for those left behind by OFW parents.

It is the duty of the government to improve the welfare of its people, especially those most in need. Senior citizens face a higher likelihood of disease and medical expenses. According to the 2017 National Demographic and Health Survey, 31 percent of senior citizens reported illness in the last month. This is 17.5 percentage points higher than the same proportion for individuals below 60 years old. As a result, senior citizens are vulnerable to financial risks arising from illness, and hence, vulnerable to poverty.

Republic Act No. 9994 or the Expanded Senior Citizens Act of 2010 was passed to amplify the constitutional mandate of giving priority to senior citizens in the provision of social services, and necessitates the provision of agency budgets, including for local government units, for plans, programs, projects, and activities intended for senior citizens. In support of this, the Department of Interior and Local Government passed Memorandum Circular 2014-59 which encourages Local Chief Executives to allocate one percent (1%) of their respective budgets for this purpose.

To institutionalize this mandate, this bill seeks to authorize the allocation of ten percent (10%) of the total internal revenue allotment for barangays for the implementation of plans, programs, projects, activities, and services for senior citizens. With the expedient approval of this bill, the State will have increased capacity to promote the welfare of our senior citizens.

In view thereof, the approval of this bill strongly recommended.
