Introducing by Representative Lorenz R. Defensor, Raul C. Tupas and Michael B. Gorriceta

EXPLANATORY NOTE

This bill seeks to establish the Philippine Children’s Medical Center for Visayas and Philippine Children’s Medical Center for Mindanao as constituent units of the Philippine Children’s Medical Center (PCMC) in Quezon City.

Section 15, Article II of the 1987 Constitution provides that “The State shall protect and promote the right to health of the people and instill health consciousness among them.” Further, Paragraph 2, Section 3 of Article XV states that “The State shall defend the right of children to assistance, including proper care and nutrition, and special protection from all forms of neglect, abuse, cruelty, exploitation, and other conditions prejudicial to their development.”

Section 11, Article XIII provides that “The State shall adopt an integrated and comprehensive approach to health development which shall endeavor to make essential goods, health and other social services available to all the people at affordable cost. There shall be priority for the needs of the underprivileged, sick, elderly, disabled, women and children. The State shall endeavor to provide free medical care to paupers.”

Consistent with the above-cited constitutional provisions, this bill aims to establish specialized medical centers and provide a full range of health care services to children in the Visayas and Mindanao.
The PCMC, formerly known as the Lungsod ng Kabataan was established under Presidential Decree No. 1631 on August 10, 1979. It was created primarily to benefit the Filipino children, enhance the research in pediatric diseases, training of medical and technical personnel and provide specialized medical services for the prevention and treatment of children’s diseases. Presently, PCMC offers a wide array of general and subspecialty services in pediatrics, surgery and allied medicine. It has training programs in various medical fields and produced researches relevant to the day-to-day case of the well and sick child.

Currently, only residents of Metro Manila and its nearby provinces are able to avail of government-sponsored medical care for infants and children through the PCMC in Quezon City. Its location is not accessible to those living in Visayas and Mindanao.

With the ever increasing population of the Visayas and Mindanao, it is imperative for the government to establish medical centers in the said regions that will cater to the medical needs of children especially from poor families. Iloilo City and Davao City are ideal locations for the children’s medical center because of its proximity to other provinces.

The establishment of PCMC-Visayas and PCMC-Mindanao will alleviate the plight of parents and children in these regions of additional costs and burden of travelling to Quezon City in order to avail of the medical services of PCMC. These medical centers will ensure the availability and accessibility of medical services for children in the Visayas and Mindanao. It will also enable the children to avail of specialized health care for the prevention and treatment of pediatric diseases.

In view of the foregoing, immediate approval of this bill is earnestly sought.
