EIGHTEENTH CONGRESS
1st Regular Session

House Bill No. 6171

Introduced by Representative ERIC GO YAP

EXPLANATORY NOTE

The basic unit of functionality of a community is its people. According to Article XIII Section 11 of 1987 Constitution, the State shall adopt an integrated and comprehensive approach to health development which shall endeavor to make essential goods, health and other social services available to all the people at affordable cost.

Prior to the enactment of the Local Government Code, the Benguet General Hospital (BeGH) was once a general hospital under the supervision of the national government. Pursuant to the devolution of basic services including health and social services, the BeGH was then converted into a district hospital which was funded and administered by the Benguet Provincial Local Government Unit (PLGU).

While the PLGU has its full support in the management of the hospital, they cannot accommodate all the needs of the hospital due to its limited budget. This bill seeks to revert the administration of the BeGH from the local government unit to the national government. This shall allow better focus on the provision and improvement of health services and facilities through sufficient funding.

More so, this bill seeks to increase and upgrade bed capacity of the institution in order to accommodate the growing number of population, and also the influx of nonresident patients availing of healthcare services. Currently, the BeGH serves as the referral center of all municipal hospitals in the province. Aside from its clientele in Benguet, BeGH provides healthcare services to those residing in Ifugao, Baguio, Abra, Mountain Province, Kalinga, and Apayao.

In view of the foregoing, approval of this bill is earnestly sought.
