HOUSE BILL NO. 6173

Introduced by HON. LUIS RAYMUND "LRAY" F. VILLAFUERTE, JR.

EXPLANATORY NOTE

Article II, Section 9 of the 1987 Constitution of the Republic of the Philippines provides that, "The State shall promote a just and dynamic social order that will ensure the prosperity and independence of the nation and free the people from poverty through policies that provide adequate social services, promote full employment, a rising standard of living, and an improved quality of life for all."

Further, Article XIII, Section 5 of the same Constitution directs the State to "provide support to agriculture through (...) adequate financial, production, marketing, and other support services."

According to Selected Statistics on Agriculture released by the Philippine Statistics Authority (PSA) in 2019, about 24.30 percent or about 10 million of the 43.46 million Filipino labor force are farmers. Among agricultural households, however, poverty rates are as high as 65.2 percent among corn farmers and 56.4 percent among farmhands and laborers.

Poverty rates in rural agricultural communities can still however improve, as entrepreneurial income notably reduced year-on-year poverty by 15 percent in 2018. This presents a unique opportunity to the 8.9 million rural agricultural households that derive 30 percent of their annual income from entrepreneurial activities.

This Bill seeks to promote sustainable inclusive and broad-based economic growth, through the creation of an Agriculture, Fisheries and Rural Financing System that will extend loans, investments, and grants to the agriculture sector. As proposed, the Bill requires all banking institutions to set aside a Credit Quota of at least 25 percent of their total loanable funds through a list of authorized mechanisms.

The Bill also creates an Agribusiness Management Capacity and Institution-Building Fund (Special Fund) to finance agricultural and fishery-related activities as well as organizational-, capacity-and institution-building programs of cooperatives and other duly-registered organizations of rural agricultural and fisheries households.
To ensure compliance, the Bill further directs the Bangko Sentral ng Pilipinas (BSP) to furnish reports on the compliance of financial institutions with the mandatory Credit Quota and to impose administrative sanctions and other penalties for violating any provisions of this Act.

Penalties on non-compliance or under-compliance shall be computed at 0.5%, or at rates prescribed by the BSP Monetary Board. Upon collection of such penalties, the BSP shall remit these to the Agricultural and Fisheries Finance and Capacity-Building Council (AFFCC) for deposit to a Special Fund. The AFFCC shall manage the Special Fund and set its target amount as well as manage capacity-building programs and activities.

Through the participation of financial institutions, this Bill realizes the Philippine State's commitment to the promotion of inclusive and broad-based economic growth that raises the quality of life through equal access to opportunities under an environment of sustained growth and expanding productivity.

In view of the foregoing, the approval of this bill is earnestly sought.
