HOUSE OF REPRESENTATIVES

H.B. No. 6386

Introduced by Representative TEODORICO T. HARESCO, JR.

EXPLANATORY NOTE

Article XIV, Section 2, Paragraph (1) of the 1987 Philippine Constitution declares that the State shall establish, maintain and support a complete, adequate and integrated system of education relevant to the needs of the people and society; and paragraph (4) concisely encourages non-formal, informal and indigenous learning systems as well as self-learning, independent and out-of-school study programs particularly those that respond to community needs.

Many Filipinos do not have a chance to attend and finish formal basic education (Grades 1-6 and Year 1-4) due to many reasons. Some drop out from schools while some do not have schools in their communities. Since every Filipino has a right to free basic education, the Government establishes ALS to provide all Filipinos the chance to have access to and complete basic education in a mode that fits their distinct situations and needs.1

This bill envisions to promote non-formal education in the most convenient way. Its vision is to bring the ALS Program to every barangay... thereby "bringing education where the learners are."

respond to their learning needs and life circumstances. The State shall also ensure the
close partnership and collaboration between the government and the private sector in
achieving this goal.

emergencies to avail of systematic and appropriate alternative basic education
programs outside of the formal school system;

g) Improve access to education and other learning opportunities and raise the level of literacy to contribute to an individual’s sustainable future; and

h) Strengthen non-formal basic education programs but ensure support to the policy of the Department of Education (DepEd) that school age children and youth should be enrolled in formal education, and that they should be able to return to the formal education system in the event that they drop out.
