EIGHTEENTH CONGRESS
First Regular Session
6412
House Bill No.  

Introduced by Rep. MARLYN B. ALONTE

EXPLANATORY NOTE

As enshrined in the Constitution, the State recognizes the vital role of communication and information in nation-building and the indispensable role of the private sector.

This bill seeks to renew the franchise granted to Independent Telephone Company, Inc. for another 25 years.

The INDEPENDENT TELEPHONE COMPANY, INC. is a duly accredited member of the Philippine Association of Private Telephone Companies, Inc. The operators thereof, being the operators of small telephone companies offering telephone services in their respective areas throughout the Philippines, by virtue of municipal and/or provincial franchises, granted them by their respective local government units (LGU's) under the provisions of the Local Autonomy Code.

Set up to link relatives and friends in Biñan using military communication equipment left by the Americans, the original owners convinced some rich families in Biñan to invest in the telephone system due to the increasing demand for a telephone system. In 1954, Independent Telephone Company, Inc. was registered as a corporation and a franchise was soon granted to it making Biñan the only town in Laguna that had an independent telephone system.

The company has long replaced the surplus equipment with state-of-the-art facilities. It was among the first telephone companies to introduce an electronic switching system that offered National Direct Dialing, International Direct Dialing, Toll-free calls, oversea Collect calls and fiber optic interconnection and digital lines for Internet and data communication link-ups.
Independent Telephone Company, Inc. now provides its subscribers with both the landline voice connection and the more in demand data connection. It now focuses its operations in providing fiber optic connection to even the remote communities in its franchise municipality.

The applicant now seeks the “protective mantle” of a congressional franchise to confirm their local franchises previously granted. This application of a congressional franchise will further the security of tenure and operations of these small local telephone exchanges who have pioneered in providing basic telephone services in the far flung areas of our country for more than fifty years, long before the “big players” in the telecommunications industry came into the picture.

These small operators are 100% Filipino owned companies who deserve nothing less than the grant of their franchise as some form of recognition of their indominable spirit of Filipino entrepreneurship.

For all the foregoing, it is earnestly urged that this bill be favorably considered.
