HOUSE BILL NO. 6507

Introduced by Hon. Deogracias Victor “DV” B. Savellano

AN ACT

EXPLANATORY NOTE

In 2017, the Department of Finance (DOF) made history by collecting from cigarette manufacturer Mighty Corporation a total of P30 billion, the biggest sum on record raised by the government from a tax settlement. This was the result of a heightened joint campaign by the Bureaus of Internal Revenue (BIR) and of Customs (BOC) against tax cheats.

However, it is observed, that from 2017, the illicit trade landscape has evolved. Rather than illicit products mainly coming from one source, there are now several small to medium-sized illicit factories operating in various parts of the Philippines. During raids conducted by both the Bureau of Internal Revenue and Bureau of Customs, it has been observed that several of these smaller factories are principally operated by foreign nationals. Based on available data shared with the House Committee on Ways and Means, the number of illegal factories manufacturing cigarettes are increasing. From two (2) illegal factories raided in 2016 and 2017, there were seven (7) factories raided in 2018 and an alarming twelve (12) factories in 2019. Based on conservative estimates, one line of cigarette maker and packer can produce more than 3.6 million sticks of cigarettes per day or about 43.68 million packs per year. At the current excise tax rate of P45 per pack, the government is losing around P1.965 billion per line one line of cigarette maker and packer.

Following the recent increases in the excise taxes on cigarettes, DOF Secretary Carlos G. Dominguez ordered the BIR and the BOC to intensify its efforts against illicit trade of cigarettes given that higher excise tax rates plausibly leads to increased instances of smuggling. While the
efforts and accomplishments of the current Strike Force of the BIR is to be lauded, there is a need to strengthen and consolidate the government’s efforts against illicit trade.

In view of the foregoing, the passage of bill is earnestly sought.
