Republic of the Philippines  
HOUSE OF THE REPRESENTATIVES  
Quezon City, Metro Manila  

EIGHTEENTH CONGRESS  
FIRST REGULAR SESSION  

House Bill No. 6609  

Introduced by  
CIBAC Party-List Representative Domingo C. Rivera  

EXPLANATORY NOTE  

Section 24, Article II of the 1987 Constitution explicitly states that the State "recognizes the vital role of communication and information in nation-building." It also acknowledges the crucial role of the private sector in providing telecommunications services to the Filipino people. Testament to this is the granting of legislative franchises by Congress to qualified private companies which can operate and provide these services to the people.

In 1997, the RCYULO Telephone System, Inc. was given the franchise to construct, install, establish, operate and maintain local exchange networks in the Municipalities of Binalbagan, Hiniragan, Isabela, Himamaylan, Pontevedra, and Murcia, all in the province of Negros Occidental. Since then, the company actively operates and provides telephone and communication services to the people of Negros Occidental.

As its primary offering, it provides its subscribers with both the landline voice connection and the more in-demand data connection. In fact, RCYULO Telephone System Inc. has the distinction of being the first and only telephone company in the Southern Part of Negros Occidental to offer an Automatic Dial System to its subscribers. Now, it focuses its operations to the more remote communities within its franchise area and provides latest telecommunications technology to its subscribers who are literally based in the countryside.
Advances in the telecommunications technologies landscape had been exponential over the past two decades and is expected to continue growing even at a more accelerated pace. RCYULO Telephone System, Inc. desires to continue making these services and products available to the localities it serves.

With all the foregoing, this legislative measure seeks to renew the franchise granted to RCYULO Telephone System, Inc. for another twenty five (25) years so that it can continue in providing telephone services to its clients.

Hence, the immediate approval of this bill is earnestly sought.
