Republic of the Philippines
HOUSE OF REPRESENTATIVES
Quezon City

EIGHTEENTH CONGRESS
First Regular Session

House Bill No. 6617

Introduced by the Honorable Precious Hipolito Castelo

EXPLANATORY NOTE

On March 11, 2020, the World Health Organization (WHO) declared Coronavirus Disease 2019 (COVID-19) as a global pandemic.

The following day, the Department of Health (DOH) announced that the COVID-19 alert level has been raised to Code Red Sublevel 2, due to evidence of community transmission as the number of cases rise in parts of the country, particularly in the National Capital Region (NCR).

President Rodrigo Duterte announced the imposition of "community quarantine" in NCR to prevent the further spread of the contagion. It was later escalated to "enhanced community quarantine" due to the surge of new cases. Stringent measures have been laid down. Classes are suspended in all levels from March 15 to April 14, 2020. Land, domestic air and sea travel to and from NCR have also been suspended during the same period. Likewise, offices under the executive department were directed to implement a skeletal workforce arrangement as work is temporarily suspended.

Subsequently, the President has declared a nationwide state of calamity for six (6) months in order to tap into the government's calamity funds.

It cannot be overemphasized how important social distancing and isolation measures are to combat the spread of COVID-19. Experts say that in order to "flatten the curve" or to prevent the sudden surge of COVID-19 cases, it is necessary that everyone cooperate. As such, most business establishments were forced to temporarily close down to prevent the mass gathering of people. All are highly enjoined to stay at home.

Informal sector workers, self-employed individuals, peddlers, contractual workers, and other workers under a "no work, no pay" arrangement are greatly affected since they are not assured of any income during the quarantine period.

Thus, in order to alleviate the financial burden of Filipinos during the occurrence of this public health crisis, it is the intent of this bill to have a 30-day "National Payment Holiday".

A one-month waiver of payments to government financial institutions such as the Social Security System (SSS), Government Service Insurance System (GSIS), Pag-IBIG Fund and PhilHealth will go a long way for those struggling financially to survive. Such payments should include loan amortizations and premium contributions.

There should also be a waiver on rentals for leased dwelling units such as apartments, dormitories and condominiums, as well as commercial spaces in private establishments like malls. The law on contracts under the Civil Code of the Philippines exempts an obligor from liability on account of "fortuitous event" or force majeure, which refers not only to events that
are unforeseeable, but also to which are foreseeable, but inevitable.\footnote{Article 1174 of the Civil Code of the Philippines.} Indeed, the occurrence of this global pandemic is a circumstance which is beyond the control of both parties and should therefore be considered as a “fortuitous event”.

Also, public utilities such as Meralco, Maynilad, and Manila Water, telecommunication companies and internet service providers such as Globe and PLDT-Smart, operators of toll roads such as North Luzon Expressway, South Luzon Expressway and NAIA road network should likewise let go of payments for one (1) month.

It is not enough for government institutions and private businesses to postpone payments. Since people are forced to stay at home during the quarantine period, they must spend whatever money they have to tide them over the emergency. They would have little to no money at all to pay for their suspended obligations after the quarantine is lifted. A 30-day “National Payment Holiday” is therefore necessary.

The immediate passage of this bill is most earnestly sought.
