Explanatory Note

We are living in a unique and peculiar time in history where our actions will dictate the tenor of the lives of our people moving forward. The times indeed call for wisdom and prudence from all sectors of our society, including the legislative which possesses a unique capacity to heavily influence the public sector response to such a crisis.

Although the Department of Education (DepEd) has reportedly recalibrated and reprioritized its programs and budget for Fiscal Year 2020-2021. Despite these courses of action, the department finds it necessary to request additional funding for the proper implementation of the preemptive and responsive measures that they have crafted to address the exigencies of the COVID-19 crisis. This representation sees that it is necessary to supplement the budget of DepEd for the continuity of the educational programs for our learners, all while ensuring their safety. Some of these programs are the Learning Continuity Program and the Feeding Programs for our nutritionally deprived learners.

In this light, this bill seeks to amend the salient provisions of the Local Government Code on the Special Education Fund (SEF), amending for the purpose RA7160 or the Local Government Code of 1991 (LGC), as amended. Particularly, we are amending Sections 100.

The amendment to Section 100 of RA7160 will provide the DepEd the power to levy funds from the SEF in times of national emergencies or when the executive deems it necessary. Through this amendment, the salaries, allowances, and other benefits of our teaching, teach-
ing-related, and non-teaching personnel will be addressed and secured. The hiring of necessary personnel, teaching or otherwise will not be hindered. Most importantly, we will ensure that the responsive programs for our learners will be implemented and thoroughly executed.

The proposed amendments will undoubtedly improve our ability to respond to the current paradigm at the manner of speed which it calls for. The responsiveness that this bill will provide will not only be applicable to the current national emergency, but to our adaptability to future emergencies of this magnitude.

It cannot be gainsaid that the welfare of our learners is of paramount importance. Although we are keen on continuing the education of our learners within a paradigm of the COVID-19 crisis, we are intent on making sure that the quality of education that we deliver is competent even under normal circumstances. As always, let us ensure that we do not simply provide mere access to education but quality education.

The educational sector and our learners require our support and we shall provide it.

In view of the foregoing, the approval of this bill is earnestly sought.
