House Bill No. 7041

Introduced by Honorable Deogracias Victor 'DV' B. Savellano

EXPLANATORY NOTE

Broadcasting, whose signals surpass geographical and even national boundaries, enjoy the highest patronage among the electronic media forms, with every Filipino home having either a radio or a television or both appliances. It is a powerful medium in shaping our people’s cultural, social, economic growth and development as broadcasting has the ability to send vital information to any destination in real time during fast developing situations. In the regional areas, broadcast networks cater to the local needs of the people in that area communicating via the local dialect or language that they are comfortable with.

The extension of the franchise of Fairwaves Broadcasting Network or FBN will allow it to continue providing various telecommunications services throughout the region at rates affordable to the consuming public. Although the media landscape is rapidly changing and media outlets are multiplying, the folks from the different regions of our country such as those in the Ilocano speaking provinces, are still heavily reliant on mass media for news, for public information, for learning and for entertainment. While some communities find it easier to acquire internet access, not everyone does, because several areas in the Philippines are still rural and not as developed as the metropolitan cities with more access to the internet. FBN for several years for the most part has aired news and current affairs of the region as well as to the whole nation and will continue to do so in its commitment to serve the people.

Broadcast media is still the biggest source of information for most Filipinos and Fairwaves Broadcasting Network has become an integral part of the lives of the residents in that region.
Hence, the immediate passage of this bill is earnestly sought.

HON. DEOGRACIAS VICTOR 'DV' B. SAVELLANO
