AN ACT
ENSURING THE RIGHTS, WELFARE, AND SAFETY OF THE WORKERS IN THE INFORMATION TECHNOLOGY AND BUSINESS PROCESS OUTSOURCING (IT-BPO) INDUSTRY IN THE PHILIPPINES

EXPLANATORY NOTE

The Philippines has established itself as the preferred location for information technology and business process outsourcing (IT-BPO) services due to the Filipino’s competitive advantage in language skills in cultural affinity. In 2010, the country was named the “BPO capital of the world”, skyrocketing interests in the industry among citizens. Now, the IT-BPO industry remains the fastest growing economic sector in the Philippines.

In the Philippines, the employee attrition rate – or the abilities, strategies, and practices to keep employees – reached up to 33% in 2011\(^1\). According to the Contact Center Association of the Philippines and the International Labor Organization, IT-BPO agents cite the nature of night-shift work as the primary cause why many IT-BPO workers leave the industry. Moreover, this particular peculiarity of the BPO industry is also linked to the health and occupational safety concerns of the IT-BPO workers, such as, but not limited to, sleep disorders, fatigue, eye strain, voice and hearing problems, and psychological stress. These issues must be addressed to uplift the welfare and morale of the IT-BPO workers which will, in turn, ensure the continuous growth of the IT-BPO industry in the Philippines.

This bill seeks to protect the labor rights and welfare of the greatest asset of the IT-BPO industry – its workers. It consists of two parts. The first part enumerates the general employment standards in the IT-BPO industry.

Among the rights and benefits according to the IT-BPO employees include, but not limited to the protection from understaffing and overloading, mandatory regularization, right to self-association, freedom from excessive company bond, and security of tenure.

The second part seeks to promote occupational health and safety in the BPO industry which includes the formulation of the occupational health and safety (OHS) standards and creating OHS representatives in the workplace that will monitor the health conditions in the office.

To ensure that the Philippines and its people can fully reap and enjoy the economic benefits given by the IT-BPO sector, the passage of this bill is earnestly sought.
