EXPLANATORY NOTE

The government has initiated various programs and systems that would provide scholarship grants, student loans, and other incentives to deserving students especially the underprivileged as provided by the Constitution mandating the State to protect and promote the rights of every Filipino in accessing quality education.

Republic Act No. 10931 or the Universal Access to Quality Tertiary Education was enacted in 2016 which seeks to further promote accessibility to the quality higher education. However, even with RA 10931 in place as well as countless other systems of scholarships and loans, many underprivileged students still fail to earn a degree or finish basic education due to lack of financial capacity to spend for their other needs such as transportation, school supplies, and other, forcing them to drop out from school.

The continuing spread of COVID-19 poses additional challenges to our students as new measures to cope with the virus were instituted in education and learning. The government has pushed for the conduct of online/distance learning in our education system. This shift to online education will cause further financial burden to our underprivileged students who now need to provide electronic devices and internet connection to continue with their studies.

To ease the financial burden of underprivileged students and help them cope with the high cost of education as well as daily school expenses, this measure proposes to grant discounts on basic services, such as food and medicine. Moreover, it also seeks to give them discounts on educational expenses, such as tuition, miscellaneous, and other school fees, including purchase of books, school supplies and electronics for purposes of participating in online/distance learning. In turn, the discounts granted by establishments to underprivileged students shall be treated as allowable deduction from their gross income.

In view of the foregoing reasons, the immediate approval of this measure is earnestly sought.
