HOUSE BILL NO. 7409  

Introduced by CIBAC Party-List Representatives

AN ACT AMENDING REPUBLIC ACT NO. 7743, OTHERWISE KNOWN AS "AN ACT PROVIDING FOR THE ESTABLISHMENT OF CONGRESSIONAL, CITY, AND MUNICIPAL LIBRARIES AND BARANGAY READING CENTERS THROUGHOUT THE PHILIPPINES," AND FOR OTHER PURPOSES  

EXPLANATORY NOTE  

Republic Act No. 7743 was enacted more than two decades and a half ago, "to promote the moral and intellectual well-being of the people: elevate the literacy level of every Filipino to the end that illiteracy is eradicated by the end of the century; and recognize the vital role of knowledge and information in nation-building by establishing public libraries in every congressional district, city and municipality, and reading centers in every barangay throughout the Philippines."

Unfortunately, two and a half decades later and amidst rapid technological advances, the Philippines is even further behind in promoting literacy and e-literacy, especially in terms of adapting to, and adopting, new technologies towards the promotion of literacy. In fact, while it has already been recognized globally that Information and Communications Technology (ICT) is essential to improving literacies,¹ our institutions remain to be suspended in time with antiquated materials, equipment and facilities. This, on top of the fact that the noble objectives of Republic

Act No. 7743 remain to be fully realized, make the situation worse in terms of promoting the intellectual and well-being of the people thru the provision of libraries and reading centers nationwide.

For example, the results of the 2018 Programme for International Students Assessment (PISA) paint a dismal picture on the state of education and over-all literacy of students in the country. Specifically, out of 79 countries assessed, the Philippines was the lowest in terms of Reading Literacy (79th), and second from the bottom for Mathematics and Science Literacy (78th), ahead only of the Dominican Republic.

Meanwhile, the results of pretests administered by the Philippine Informal Reading Inventory (Phil-IRI) between July and August 2019 showed that 70,000 Bicol pupils cannot read.²

These are just some of the situations that highlight the need to improve our library and reading center systems to pave the way for the adoption and use of new technologies that would further promote literacy among our citizens. Thus, the early passage of this bill is earnestly sought.
