AN ACT REQUIRING THE EMPLOYMENT OF QUALIFIED LIFEGUARDS IN ALL PUBLIC SWIMMING POOLS AND BATHING FACILITIES, AND PROVIDING PENALTIES FOR VIOLATION THEREOF

Being in a tropical country, beaches, swimming pools and other bodies of water are almost always in our considerations for rest and recreation. However, incidents of drowning are too common that we almost take it for granted. Drowning is dismissed as a natural consequence of having so many bodies of water around us. It is alarming to note that drowning is the second leading cause of death among Filipino children, and the rates of death have remained the same way for decades.

Accordingly, this measure proposes to improve our compliance with safety standards by (1) establishing a formula, based on World Health Organization standards, for the number of lifeguards required to be on-duty at all times at public swimming pools; (2) mandating strict enforcement of the lifeguard requirement by the Department of Health; and, (3) Increasing the criminal liabilities for pool operators who fail to comply with the requirement, and penalizing negligent lifeguards whose actions, or lack thereof, result in the death or serious injury of persons.

It only takes a moment. A child can drown in the time it takes to reply to a text or apply sunscreen. Having a watchful lifeguard can really spell the difference between life and death in unsuspecting circumstances.

In view of the foregoing, the immediate passage of this bill is most earnestly sought.
