AN ACT MANDATING THE RIGHT TO PROTECT ONESELF, FAMILY, PROPERTY AND OTHERS

EXPLANATORY NOTE

Firearm-related crimes increased by 28% from 14,641 in 2014 to 18,703 in 2015. Data from the Directorate for Investigation and Detective Management of the Philippine National Police (PNP) show that from 2013 to 2015, 99% of firearm-related crimes involved unlicensed firearms. This means that only 1% of firearm-related crimes involved license firearms.

Individuals have the right to use reasonable force or defensive force, including, in certain circumstances, the use of deadly force for the purpose of defending one’s own life or the lives of others. Individuals should, therefore, have the right to defend themselves from violence, including firearm-related violence, through the use of licensed concealed firearms. Thus, individuals with licensed firearms should be given the right to protect oneself, family, property and others.

The bill seeks to merge the License to Own and Possess Firearms (LTOPF) and Permit to Carry Firearm Outside of Residence (PTCFOR) into a single license. The new license will continue to be referred to as the LTOPF. Applicants will be charged a new set of fees depending on the length of validity of their permits and the type of firearms they will be owning and carrying. All firearms are to remain concealed in public spaces.

At present, both LTOPF and PTCFOR have the same requirements. This bill aims to simplify the redundant firearm application process to encourage new and existing owners to have their firearms licensed.

Congress should exercise its mandate to legislate for the safety and security of the Filipino people. Thus, the approval of this bill is urgently sought.
