Republic Act No. 11469, otherwise known as the “Bayanihan to Heal as One Act” (BAYANIHAN 1), and Republic Act No. 11494, otherwise known as the “Bayanihan to Recover as One Act” (BAYANIHAN 2), are pieces of legislation primarily intended to, among others, contain the transmission of the Corona Virus Disease 2019 (COVID19), manage and strengthen the healthcare system, extend assistance to the affected Filipinos and their families affected by COVID19, address the health and economic crises caused by the COVID19, and support and revitalize the Philippine economy. Both laws seek to protect Filipino lives as well as the Philippine economy, and provide the path to healing and recovery.

The report presented by the Executive Department to Congress on the implementation of both laws, more particularly, BAYANIHAN 2, showed a substantial delay in the release of the funds intended to provide assistance to the people through the various programs and activities, and projects enumerated in BAYANIHAN 2. These programs and projects are vital in the recovery path envisioned by Congress and the measures necessary to avert economic collapse.
Clearly, a delay in the release of these funds will adversely affect and hinder the implementation of the projects and programs meant to combat the effects of COVID19 and alleviate the plight of the affected Filipinos and businesses.

Undoubtedly, there is a need to extend the validity of certain appropriations made under BAYANIHAN 2, at least until the next adjournment of the Eighteenth Congress on March 27, 2021, to ensure consistent and efficient delivery of assistance to the Filipino people that will lead to the recovery of our economy.

In view of the foregoing, immediate approval of the bill is respectfully requested.
