HOUSE BILL NO. 8104

Introduced by HON. JOY MYRA S. TAMBUNTING

EXPLANATORY NOTE

Almost nine months since our lock-downs began and the onset of the COVID-19 pandemic, our country is still experiencing a steady increase of COVID-19 infections, with a total of 424,297 cases at present. As we continue to navigate our way to beating this pandemic, we proactively try to propose measures and policies which could help our nation combat COVID-19. Presently, foreign pharmaceutical companies are presently racing to develop a vaccine for COVID-19, with six COVID-19 vaccine candidates having entered phase-3 trials. The Department of Health has since reported that Philippines’ purchase and distribution of Covid-19 vaccines can only be made starting the second quarter of 2021.

Considering the current progress in the vaccine race and the DOH’s timeline regards the purchase and distribution of COVID-19 vaccines, this Representation believes that it is only appropriate that the Department of Health, in coordination with local government units and other the Department of Interior and Local Government, plan for the safe, efficient and timely distribution of the COVID-19 vaccine by creating a program that would ensure the maximization of the impact of the vaccines on minimizing the transmission of the disease.

The early preparation of a comprehensive vaccination plan will allow for the speedy distribution of the COVID-19 vaccines; and will consequently hasten the resumption of normal activities which would greatly help our economy’s recovery. We must make the vaccine accessible to our countrymen if we are to put an end to this pandemic.

On behalf of the people of Parañaque City’s Second District, and for the common good of the Filipino people, the approval of the said measure is earnestly sought.
