WHEREAS, it is the policy of the State to promote and ensure that public roads are adequately maintained to protect the safety of motorists, road users and the general public;

WHEREAS, the Metro Manila Development Authority (MMDA) is the government agency tasked to plan, manage and implement most of the road projects in the national roads within Metro Manila;

WHEREAS, in the recent months, diggings and excavation works can be seen in many thoroughfares throughout Metro Manila, which appears to be imbedded with cables, tubes and wirings;

WHEREAS, most of these works continue to remain unfinished, some still totally uncovered, others partially or improperly covered by protruding steel plates, and all without the proper safety and warning signs;

WHEREAS, the delay in completing these works, the lack of safety signs and haphazard implementation of such projects not only create unnecessary build-up of traffic but more importantly compromise the safety of road users;

THEREFORE, be it resolved, as it is hereby resolved, to direct the Committee on Metro Manila Development to investigate in aid of legislation and other purposes, the aforementioned construction activities, diggings and excavations works, for the purpose of correcting such poorly planned and implemented road works, which are contrary to state policies on road and public safety.
