HOUSE BILL NO. 78  

Introducing by Representative JOEY SARTE SALCEDA  

AN ACT  
PROVIDING FOR THE DEFINITION OF PUBLIC UTILITY, FURTHER  
AMENDING FOR THE PURPOSE COMMONWEALTH ACT NO. 146,  
OTHERWISE KNOWN AS THE "PUBLIC SERVICE ACT", AS AMENDED  

EXPLANATORY NOTE  

Consumers often experience high prices and poor quality of basic services in the Philippines, because only a few local players or oligarchs effectively control the market. Competition and foreign investment are inhibited, because limitations that should only apply to the operation of a public utility are usually also applied to all public services. This situation is caused by the ambiguity in the definition of public utility that is often used interchangeably with public service under Commonwealth Act No. 146 or the Public Service Act. The key to fixing this problem is to develop a clear statutory definition of a public utility by amending the Public Service Act.

The Public Service Act is a law that was crafted in 1936 to govern public services in the Philippines. Understandably, it no longer sufficiently addresses the changes in the economic framework brought about by globalization and rapid technological innovation. Hence, there is a need to adjust the provisions of the law to bring it to the 21st century and enable it to fulfill its purpose of truly serving the public.

Notwithstanding numerous amendments, this 80-year old law is still a good law in terms of protecting the public interest, albeit outdated in certain aspects, particularly: 1) the transfer of the functions of the Public Service Commission to various administrative agencies; 2) the definition of public service, which is often used as a proxy for public utility in reference to the 1987 Constitution; and 3) the applicable penalties and fees for public services.

This bill proposes to further amend the Public Service Act to effect the necessary changes in the antiquated provisions of the law to increase its relevance to contemporary concerns, in the interest of providing the general public with more choices, better services, and lower prices. This bill also prescribes a 12% cap on rate of return and prohibits income
tax as operating expense for rate-determination purposes for public services, including public utilities, consistent with administrative and judicial pronouncements.

This legislative reform will significantly contribute to increasing competition, as well as protecting the public interest. More competition among providers would result in lower prices and improved quality of basic services in the Philippines creating a more competitive economy towards a better quality of life for all.

In light of the foregoing, the passage of this bill is most earnestly sought
