impulses, radiated through space or transmitted through any other medium, and all other
telecommunications system technologies as are at present available or will be made available

convenient or essential to efficiently carry out the purpose of this franchise, is hereby
renewed for another twenty-five (25) years.

SEC. 2. Manner of Operation of Stations or Facilities. – The stations or facilities of the
grantee shall be constructed and operated in a manner as will, at most, result only in the
minimum interference on the wavelengths or frequencies of existing stations or other
stations which may be established by law, without in any way diminishing its own right to use
its assigned wavelengths or frequencies and the quality of transmission or reception thereon
as should maximize rendition of the grantee's services or the availability thereof.

SEC. 3. Authority of the National Telecommunications Commission. – The grantee shall
secure from the National Telecommunications Commission (NTC) a Certificate of Public
Convenience and Necessity or the appropriate permits and licenses for the construction,
installation and operation of its telecommunications systems or facilities. In issuing the
certificate, the NTC shall have the power to regulate and impose such conditions relative to
the construction, operation, maintenance, or service level of the telecommunications systems

streets, lanes, alleys, avenues, sidewalks, or bridges of the province, cities, or municipalities:

or bridge disturbed, altered, or changed by reason of erection of poles or other supports or
the underground laying of wires, other conductors or conduits, shall be repaired and replaced
in workmanlike manner by said grantee, its successors or assignees, in accordance with the
standards set by the DPWH or the LGU concerned. Should the grantee, its successors or
assignees, after the ten (10) day notice from the said authority, fail, refuse, or neglect to repair
or replace any part of public place, road, highway, street, lane, alley, avenue, sidewalk, or
bridge altered, changed or disturbed by the said grantee, its successors or assignees, then the
DPWH or the LGU concerned shall have the right to have the same repaired and placed in
good order and condition, and charge the grantee, its successors or assignees at double the
amount of the costs and expenses for such repair or replacement.

SEC. 5. Responsibility to the Public. - The grantee shall conform to the ethics of honest

equipment for the transmission and reception of messages, signals, and pulses in a
satisfactory manner at all times, and as far as economical and practicable, modify, improve,
or change such stations, lines, cables, systems, and equipment to keep abreast with the
advances in science and technology.

The grantee shall also improve and upgrade its equipment, facilities and services, in order to ensure effective compliance with the objectives of Republic Act No. 10639 or the “Free Mobile Disaster Alerts Act”.

SEC. 6. Rates for Services. – The charges and rates for telecommunications services of the grantee, except the rates and charges on those that may hereafter be declared or considered as non-regulated services, whether flat rates or measured rates or variation thereof, shall be subject to the approval of the NTC or its legal successor.

SEC. 7. Right of Government. – The radio spectrum is a finite resource that is part of the national patrimony and the use thereof is a privilege conferred upon the grantee by the State and may be withdrawn any time after due process.

A special right is hereby reserved to the President of the Philippines, in times of war, rebellion, public peril, calamity, emergency, disaster, or disturbance of peace and order: to temporarily take over and operate the stations, transmitters, facilities, or equipment of the grantee; to temporarily suspend the operation of any station, transmitter, facility, or equipment in the interest of public safety, security, and public welfare; or to authorize the temporary use and operation thereof by any agency of the government, upon due compensation to the grantee for the use of the stations, transmitters, facilities, or equipment during the period when these shall be so operated.

SEC. 8. Term of Franchise. – This franchise shall be renewed and in effect for a period of twenty-five (25) years from the expiration thereof on 9 August 2021, unless sooner revoked or cancelled.

The NTC shall issue rules and regulations for this purpose, the effectivity of which shall commence upon applicability with other telecommunications franchise grantees.

SEC. 11. Warranty in Favor of the National and Local Governments. - The grantee shall hold the national, provincial, city, and municipal governments of the Philippines free from all claims, liabilities, accounts, demands, or actions arising out of accidents causing injury to
