HOUSE BILL NO. 1117

Introduced by: **Representative Jose L. Atienza, Jr.**

EXPLANATORY NOTE

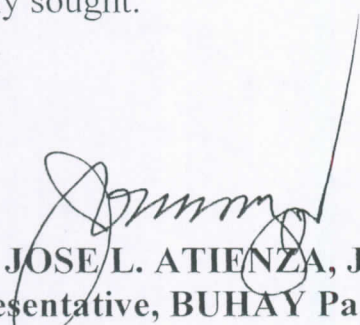

Pigeon racing is a hobby turned into sport by Filipinos and enjoyed by old and young generations. The mechanics of the sport is simple: Racing pigeons are set to be released from a particular location while pigeon owners await their return to their respective lofts or homes. The fastest bird to return shall be declared the winner. Speed is the basis to determine the winner with a computation of distance divided by time travelled.

Pigeon racing has long been a popular sport and recreational activity among Filipino youth and enthusiasts. This engaging sport is a good way to keep the youth away from drugs and other illegal activities.

However, most breeders are discouraged and lose millions in investments due to the presence of "lambateros". Lambateros are those who set up "lambats" or nets which catch the pigeons during the race proper. Photos of these pigeons are then posted on social media where the birdnappers or catchers ask for ransom from their owners.

The proliferation of these lambateros poses hazards not only to the pigeon racers but also to other endangered wildlife species.

As such, passage of this bill is urgently sought.
