HOUSE BILL NO. 1747

Introduced by HON. LUIS RAYMUND "LRAY" F. VILLAFUERTE, JR.

EXPLANATORY NOTE

The government has made great leaps in ensuring that all Filipinos get the health care they deserve. Universal health care is a top priority for the Department of Health (DOH). Programs by the DOH are aimed at addressing the inequity in the health system through expansion in delivery of the National Health Insurance Program and improved access to quality health care facilities. The passage of Republic Act No. 9502, also known as the "Universally Accessible Cheaper and Quality Medicines Act of 2008", guaranteed better access to essential medicines. However, providing a completely accessible health care program remains to be a challenge for the State.

The thrust and push of the DOH in helping Filipinos receive affordable and quality health services is the same wisdom that this bill hopes to espouse. The bill proposes to establish a drugstore in every barangay in the country, to be known as the Botika sa Barangay, to expand accessibility to essential medicines. The DOH is tasked to prioritize economically-depressed barangays in establishing these Botikas.

Strong support from legislation has constantly been expressed on the matter of health care for all Filipinos—from those that have been enacted to those currently proposed. It is the intention of this legislation to add to the current measures to improve medicine access in the country.

The approval of this bill is earnestly sought.
