EXPLANATORY NOTE

The 1987 Philippine Constitution Article XIV Section 13 provides the State shall protect and secure the exclusive rights of scientists, inventors, artists, and other gifted citizens to their intellectual property and creations, particularly when beneficial to the people, for such period as may be provided by law.

Anent to such State’s duty is to protect, secure and promote the intellectual property rights of the people, and to recognize the vital role that an efficient and balanced intellectual property system plays in the economic, technological and sociocultural development of a country.

This bill proposes the passing of a new Intellectual Property Act with the ultimate goal of ensuring that scientists, inventors, artists, and other gifted citizens are encouraged to continue creating and innovating so that both citizens and consumers can benefit from innovative and creative products. In addition, the new and amended provisions contained in the new Intellectual Property Act, as proposed,
are designed to ensure a balance between the interests of both the owners/holders and users of the products protected by these rights.

Innovation and creativity are important factors and drivers of economic growth. By protecting their intellectual property rights, it helps to ensure that individuals who innovate and use their creativity and skills are properly rewarded and their rights over their creations protected.

The proposed new Intellectual Property Act endeavours to accomplish, among others, the following:

- Increase the capacity of IPOP HL to provide assistance to stakeholders, the general public, and specific sectors like the academe, the industries, and the MSMEs

- Have a more entrenched IP System that will nurture a culture of creativity and innovation

- Widen the scope of public engagement and facilitate the delivery of IP services all over the country with a focus on regional development

- Clarify and fill the gap created by the Personal Property Security Act.

- Institutionalize the NCIPR and the Powers of a Sub-Committee on Enforcement of Intellectual Property Rights in the Digital Environment.

- Allow Provisional Patent Applications to encourage Philippine inventors to file applications while the invention has yet to be perfected

- Streamline administrative procedures relating to intellectual property rights to liberalize the registration on the transfer of technology, enhance the enforcement of intellectual property rights in the Philippines, and promote the use of relevant, emerging, advanced, and state-of-the-art technologies in providing a more efficient and higher quality service to the stakeholders and the public.

In line with this view, the passage of this measure is earnestly sought.

Chapter III REGISTRABILITY

SECTION 120. Registrability. –

120.1. A mark may be registered if it is distinctive. On the other hand, a mark cannot be registered if it:

   a. Consists of matter which:

      1. is offensive, immoral, deceptive or scandalous, or suggests a distortion of values;

      2. may disparage or falsely suggest a connection with living or dead persons, institutions, entities, beliefs, customs, values, or national symbols, national identity, heritage or patrimony; or

      3. brings any of the foregoing into contempt, disrespect, or disrepute;

   b. Consists of the flag, coat of arms or other insignia of the Philippines or any of its political subdivisions, or of its agencies, or of any foreign nation, or of any foreign international organization, or any simulation thereof;

   c. Consists of a name, portrait or signature identifying a particular living individual except by his written consent, or the name, signature, or portrait of a deceased President of the Philippines, during the life of the surviving spouse, if any, except by written consent of the latter;

   d. Is identical with or is confusingly similar to a registered mark belonging to a different proprietor or a mark with an earlier filing or priority date, in respect of the same goods or services, or closely related goods or services; or nearly resembles a registered mark belonging to a different proprietor or a mark with an earlier filing or priority date as to likely deceive or cause confusion;
e. Is identical with, or confusingly similar to, or constitutes a translation of a mark which is considered by the competent authority of the Philippines as prescribed in the Regulation to be well-known internationally or in the Philippines, whether or not it is registered here, as being already the mark of a person other than the applicant for registration, and used for identical or similar goods or services: Provided, That use of the mark in relation to those goods or services which are not similar to those with respect to which registration is applied for and that the use of such mark in those goods and services would indicate a connection between those goods or services, and the owner of the well-known mark and that the interests of the owner of the well-known mark are likely to be damaged by such use; Provided finally, That in determining whether a mark is well-known, account shall be taken of the knowledge of the relevant sector of the public, rather than of the public at large, including knowledge in the Philippines which has been obtained as a result of the promotion of the mark;

f. Is likely to mislead the public, particularly as to the nature, quality, characteristics or geographical origin of the goods or services;

g. Consists exclusively of signs that are generic for the goods or services that they seek to identify;

h. Consists exclusively of signs or of indications that have become customary or usual to designate the goods or services in everyday language or in bona fide and established trade practice;

i. Consists exclusively of signs or of indications that may serve in trade to designate the kind, quality, quantity, intended purpose, value, geographical origin, subject matter, time or production of the goods or rendering of the services, or other characteristics of the goods or
services, except when the application is for the registration of a collective or certification mark covering geographical indication;

j. Consists of shapes that may be necessitated by technical factors or by the nature of the goods themselves or factors that affect their intrinsic value;

k. Consists of color alone, unless defined by a given form;

l. Lacks distinctiveness;

m. Impairs or dilutes the distinctiveness, or harms the reputation of a well-known mark, as declared by competent authority, whether registered or not; or

n. Is contrary to public order, public policy, or morality.

120.2. For the purpose of declaring a mark well-known as provided in paragraph (e), the Director General, Bureau of Legal Affairs, Bureau of Trademarks and judicial authorities are considered competent authorities in relation to their respective functions or jurisdictions.

120.3. In determining the likelihood of confusion in paragraphs (d) and (e), primordial consideration shall be given to the dominant feature of the marks. The similarity of the goods or services covered by the marks is also considered. Goods or services that are in the same class are not necessarily similar. Likewise, goods or services that are in different classes are not necessarily dissimilar.
120.4. As regards signs or devices mentioned in paragraphs (i), (j), and (k) or those where the shapes of the goods themselves or portion thereof are not necessitated by technical factors, their packaging, or containers, nothing shall prevent the registration of any such sign or device which has become distinctive in relation to the goods for which registration is requested as a result of the use that have been made of it in commerce in the Philippines. The Office may accept as *prima facie* evidence that the mark has become distinctive, as used in connection with the applicant's goods or services in commerce, proof of substantially exclusive and continuous use thereof by the applicant in commerce in the Philippines for at least three (3) years before the date on which the claim of distinctiveness is made.

120.5. The nature of the goods to which the mark is applied will not constitute an obstacle to registration.

**Chapter IV TRADEMARK APPLICATION**

**SECTION 121. Requirements of Application.** -

121.1. The application for the registration of the mark shall be in Filipino or in English and shall contain the following:

a. A request for registration;

2. The date on which the earlier application was filed, and

3. Where available, the application number of the earlier application;

g. Where the applicant claims color as a distinctive feature of the mark, a statement to that effect as well as the name or names of the color or colors claimed and an indication, in respect of each color, of the principal parts of the mark which are in that color;

i. One or more reproductions of the mark, as prescribed in the Regulations;

j. A transliteration or translation of the mark or of some parts of the mark, as prescribed in the Regulations;

l. A signature by, or other self-identification of, the applicant or representative.

121.2. One (1) application may relate to several goods and/or services, whether they belong to one (1) class or to several classes of the Nice Classification.

121.3. If during the examination of the application, the Office finds factual basis to reasonably doubt the veracity of any indication or element in the application, it may require the applicant to submit sufficient evidence to remove the doubt.

SECTION 122. Disclaimers. - The Office may allow or require the applicant to disclaim an unregistrable component of an otherwise registrable mark but such disclaimer shall not prejudice or affect the applicant's or owner's rights then existing or thereafter arising in the disclaimed matter, nor such shall disclaimer prejudice or
affect the applicant’s or owner’s right on another application of later date if the
disclaimed matter became distinctive of the applicant’s or owner’s goods, business or
services.

SECTION 123.  Filing Date. –

123.1. Requirements. – The filing date of an application shall be the date on which the
Office received the duly accomplished prescribed application form containing
the following in English or Filipino:

a. The identity of the applicant;
b. Contact details of the applicant and his representative, if any;
c. A reproduction of the mark to be registered; and
d. The list of the goods and/or services covered by the mark.

123.2. Payment of the required filing fee on or immediately after the date of filing of
the above requirements shall confirm the filing date and application number
 accorded to the application.

Where a signature is required, the Office shall accept:

a. A hand-written signature; or

b. The use of other forms of signature, such as an electronic, printed or
   stamped signature, or the use of a seal, instead of a hand-written signature:
   Provided, That where a seal is used, it should be accompanied by an
   indication in letters of the name of the signatory.

124.2. The Office shall accept communications to it by electronic means or the latest
technologies subject to the conditions or requirements that will be prescribed
by the Regulations.
124.3. No attestation, notarization, authentication, legalization or other certification of any signature or other means of self-identification referred to in the preceding paragraphs, will be required, except, where the signature concerns the surrender of a registration.

SECTION 125.  Priority Right. –

125.1. An application for registration of a mark filed in the Philippines by a person referred to in Section 3, and who previously duly filed an application for registration of the same mark in one of those countries, shall be considered as filed as of the day the application was first filed in the foreign country: Provided, That the application in the Philippines is filed within six months from the date on which the application was first filed in the foreign country.

125.2. Nothing in this section shall entitle the owner of a registration granted under this section to sue for acts committed prior to the date on which his mark was registered in this country: Provided, That, notwithstanding the foregoing, the owner of a well-known mark as defined in Section 120.1(e) of this Act, that is not registered in the Philippines, may, against an identical or confusingly similar mark, oppose its registration, or petition the cancellation of its registration or sue for unfair competition, without prejudice to availing himself of other remedies provided for under the law.

125.3. In like manner and subject to the same conditions and requirements, the right provided in this section may be based upon a subsequent regularly filed application in the same foreign country: Provided, That any foreign application filed prior to such subsequent application has been withdrawn, abandoned, or otherwise disposed of, without having been laid open to public inspection and without leaving any rights outstanding, and has not served, nor thereafter shall serve, as a basis for claiming a right of priority.
Chapter V PROCEDURE FOR REGISTRATION OF TRADEMARK

SECTION 126. Application Number and Filing Date. –

126.1. The Office shall examine whether the application satisfies the formalities and substantive requirements for the grant of registration. If the application does not satisfy the registration requirements, the applicant shall be given the opportunity to complete or correct the application as required, otherwise, the application shall be considered abandoned.

126.2. An abandoned application may be revived as a pending application upon good cause shown and the payment of the required fee.

SECTION 127. Maintenance of Mark. -

127.1. To maintain the application or registration of the mark, it must be used on goods or services. For this purpose, the applicant or registrant shall file a declaration of actual use of the mark with evidence to that effect within:
   a. Three (3) years and six (6) months from the filing date of the application;
   b. One (1) year from the fifth anniversary of the registration;
   c. One (1) year from date of renewal to be reckoned from the date of renewal; and
   d. One (1) year from the fifth anniversary of each renewal.

In case of non-use, the applicant or registrant, when warranted, shall instead file a declaration of non-use indicating the grounds and justification therefor as provided under the regulations.

127.2. Effect of Non-Filing of Declaration of Actual Use or Declaration of Non-Use - An application or registration shall be deemed abandoned for non-filing of the declaration of actual use or declaration of non-use. An abandoned application or registration may be revived upon the filing of a petition for revival within
three (3) months from the date of abandonment upon payment of the required fees, otherwise the mark shall be refused or removed from the register.

SECTION 128. Opposition. - Any person who believes that he would be damaged by the registration of a mark may, upon payment of the required fee and within thirty (30) days after the publication of the application, file with the Bureau of Legal Affairs an opposition thereto. For good cause shown and upon payment of the required surcharge, the time for filing an opposition may be extended by the Director of Legal Affairs, who shall notify the applicant of such extension.

SECTION 129. Notice and Hearing. - Upon the filing of an opposition, the Office shall serve notice of the filing on the applicant, and of the date of the hearing thereof upon the applicant and the opposer and all other persons having any right, title or interest in the mark covered by the application, as appear of record in the Office.

SECTION 130. Remand of Application to the Examiner. – The Examiner may again exercise jurisdiction over the application upon remand of the Director on the ground of newly discovered information or objection to the registration of the mark. After remand of an application, the amendment(s) recommended by the Examiner, if any, may be approved by the Director and may be made without withdrawing the allowance. The Examiner may likewise issue a subsequent action on the basis of the newly discovered information or objection.

SECTION 131. Issuance and Publication of Certificate. - When the period for filing the opposition or appeal has expired or the decision or order has become final and executory, and upon payment by the applicant of the required fee, the Office shall issue the certificate of registration and publish in the IPOPHL Gazette.

SECTION 132. Classification of Goods and Services. –Each registration, and any publication of the Office which concerns an application or registration effected by the Office shall indicate the goods or services by their names, grouped according to the
classes of the Nice Classification, and each group shall be preceded by the number of the class of that Classification to which that group of goods or services belongs, presented in the order of the classes of the said Classification.

SECTION 133. Duration. – A certificate of registration shall remain in force for ten (10) years from the date of registration.

In case where a motion for extension for the period to file an opposition is granted by the Bureau of Legal Affairs, the mark is deemed registered the day following the expiration of the extension period.

When an opposition is filed, a mark shall be considered registered on the date the decision or final order giving due course to the application becomes final and executory.

Chapter VI RENEWAL OF TRADEMARK REGISTRATION

SECTION 134. Renewal. – A certificate of registration may be renewed for periods of ten (10) years at its expiration upon payment of the prescribed fee and upon filing of a request in accordance with the Rules promulgated by the Office.

Chapter VII RIGHTS OF REGISTRANTS

SECTION 135. Rights Conferred. –

135.1. Except in cases of importation of drugs and medicines allowed under Section 73 (a) of this Act and of off-patent drugs and medicines, the owner of a registered mark shall have the exclusive right to prevent, prohibit, and restrain all third parties not having the owner’s consent from using in the course of trade identical or similar signs or containers for goods or services which are identical or similar to those in respect of which the trademark is registered where such use would result in a likelihood of confusion.
135.2. In case of the use of an identical sign for identical goods or services, a likelihood of confusion shall be presumed.

SECTION 136. Use of Indications by Third Parties for Purposes Other than those for which the Mark is Used. - Registration of the mark shall not confer on the registered owner the right to preclude third parties from using bona fide their names, addresses, pseudonyms, a geographical name, or exact indications concerning the kind, quality, quantity, destination, value, place of origin, or time of production or of supply, of their goods or services: Provided, That such use is confined to the purposes of mere identification or information and cannot mislead the public as to the source of the goods or services.

Chapter VIII CANCELLATION OF TRADEMARKS

SECTION 137. Cancellation. –

137.1. Cancellation upon Application by Registrant; Amendment or Disclaimer of Registration. - Upon application of the registrant, the Office may permit any registration to be surrendered for cancellation, and upon cancellation the appropriate entry shall be made in the records of the Office. Upon application of the registrant and payment of the prescribed fee, the Office for good cause may permit any registration to be amended or to be disclaimed in part.

137.2. Cancellation of Registration. - A petition to cancel a registration of a mark under this Act may be filed with the Bureau of Legal Affairs by any interested person at any time:

1. if the registration was contrary to the provisions of this Act;
2. if the registration was obtained fraudulently;
3. if the registration was obtained in bad faith;
4. if the mark has been abandoned;
5. if the registered owner of the mark without legitimate reason fails to use the mark within the Philippines, or to cause it to be used in the Philippines by virtue of a license during an uninterrupted period of three and a half (3 1/2) years or longer;

6. if the mark is being used to misrepresent the source of the goods or services on or in connection with which the mark is used; or

7. if the mark has become generic.

If the registered mark becomes the generic name for less than all of the goods or services for which it is registered, a petition to cancel the registration for only those goods or services may be filed. A registered mark shall not be deemed to be the generic name of goods or services solely because such mark is also used as a name of or to identify a unique product or service. The primary significance of the registered mark to the relevant public rather than purchaser motivation shall be the test for determining whether the registered mark has become the generic name of goods or services on or in connection with which it has been used.

137.3. Notwithstanding the foregoing provisions, the court or the administrative agency vested with jurisdiction to hear and adjudicate any action to enforce the rights to a registered mark shall likewise exercise jurisdiction to determine whether the registration of said mark may be cancelled in accordance with this Act. The filing of a suit to enforce the registered mark with the proper court or agency shall exclude any other court or agency from assuming jurisdiction over a subsequently filed petition to cancel the same mark. On the other hand, the earlier filing of petition to cancel the mark with the Bureau of Legal Affairs shall not constitute a prejudicial question that must be resolved before an action to enforce the rights to same registered mark may be decided.

Chapter IX TRADE NAMES OR BUSINESS NAMES
SECTION 138. *Trade Names or Business Names.* - A name or designation may not be used as a trade name if by its nature or the use to which such name or designation may be put, it is contrary to public order or morals and if, in particular, it is liable to deceive trade circles or the public as to the nature of the enterprise identified by that name.

SECTION 139. *Protection of Trade Names against Unlawful Acts.* –
139.1. Notwithstanding any laws or regulations providing for any obligation to register trade names, such names shall be protected, even prior to or without registration, against any unlawful act committed by third parties.

139.2. In particular, any subsequent use of the trade name by a third party, whether as a trade name or a mark or collective mark, or any such use of a similar trade name or mark, likely to mislead the public, shall be deemed unlawful.

SECTION 140. The following provisions shall also be applicable to trade names, when appropriate:

part thereof identified by that name. The provisions of Sections 212 to 215 apply
mutatis mutandis.

SECTION 142. Goods Bearing Infringing Marks or Trade Names. - No article of
imported merchandise which shall copy or simulate the name of any domestic
product, or manufacturer, or dealer, or which shall copy or simulate a mark registered
in accordance with the provisions of this Act, or shall bear a mark or trade name
calculated to induce the public to believe that the article is manufactured in the
Philippines, or that it is manufactured in any foreign country or locality other than
the country or locality where it is in fact manufactured, shall be admitted to entry at
any custom house of the Philippines. In order to aid the officers of the customs service
in enforcing this prohibition, any person who is entitled to the benefits of this Act,
may require that his name and residence, and the name of the locality in which his
goods are manufactured, a copy of the certificate of registration of his mark or trade
name, to be recorded in books which shall be kept for this purpose in the Bureau of
Customs, under such regulations as the Collector of Customs with the approval of the
Secretary of Finance shall prescribe, and may furnish to the said Bureau facsimiles
of his name, the name of the locality in which his goods are manufactured, or his
registered mark or trade name, and thereupon the Collector of Customs shall cause
one (1) or more copies of the same to be transmitted to each collector or to other proper
officer of the Bureau of Customs.

Chapter X COLLECTIVE MARKS AND CERTIFICATION
MARKS

SECTION 143. Collective Marks and Certification Marks. –Subject to Sections 144 and
146, Sections 119 to 137 and 142 shall apply to collective marks, except that

SECTION 146. Cancellation of Collective Marks or Certification Marks. - In addition to the grounds provided in Sections 212 to 215, the Office or the court shall cancel the registration of a collective mark or certification mark if the person requesting the cancellation proves that the registered owner uses the mark, or uses or permits its use in contravention of the agreements referred to in Sections 144 and 145 or uses or permits its use in a manner liable to deceive trade circles or the public as to the origin or any other common characteristics of the goods or services concerned.

SECTION 147. Prohibition against Licensing of Collective Marks or Certification Marks. - The registration of a collective or certification mark, or an application therefor shall not be the subject of a license contract.

Chapter XI

SECTION 148. Protection Against Unfair Competition. –

148.1. 148.2. Any person who shall employ deception or any other means contrary to good faith by which that person shall pass off the business, services or goods manufactured or dealt in by such person for those of the one having established such goodwill, or who shall commit any acts calculated to produce said result, shall be guilty of unfair competition, and shall be subject to an action therefor.

description of fact, or false or misleading representation of fact, which:

149.1. Is likely to cause confusion, or to cause mistake, or to deceive as to the
affiliation, connection, or association of such person with another person, or as
