AN ACT
ESTABLISHING THE PHILIPPINE HEALTH SECURITY COUNCIL AND
APPROPRIATING FUNDS THEREFOR

Be it enacted by the Senate and the House of Representatives of the Philippines in Congress assembled:

CHAPTER I
PRELIMINARY PROVISIONS

SECTION 1. Title. – This Act shall be known as the “Philippine Health Security Act”.

SEC. 2. Declaration of Policy. – Section 15 of Article II of the Constitution of the Philippines declares that the State shall protect and promote the right to health of the people and instill health consciousness among them. Section 11 of Article XIII of the Constitution mandates the adoption of an integrated and comprehensive approach to health development.

By virtue of its obligations under the International Health Regulations (IHR) 2005 of the World

1 Health Organization (WHO), the Philippines is required to build its core capacities in protecting its
2 citizens, along with the citizens of other countries, from the spread of diseases and other health hazards.

3
4 Towards this end, the State shall:

5
6 (a) Protect the physical and mental health of the Filipinos, limit economic losses, and preserve
7 confidence in government by strengthening public health and health care systems to effectively
8 and swiftly confront the devastating consequences of health risks, such as emerging infectious
9 diseases that could lead to a pandemic; use of chemical, biological, radiological, and nuclear
10 weapons; health-related cyber warfare; and catastrophic natural disasters and human-caused
11 incidents, through multi-sectoral and multidisciplinary approaches for effective alert and response
12 systems;

13
14 (b) Prepare, mobilize, and coordinate the whole-of-government and whole-of-society approach to
15 bring the full spectrum of public health capabilities in the event of a public health emergency,
16 disaster, or attack.

17
18 **SEC. 3. *Definition of Terms.*** – As used in this Act:

19
20 (a) *Cybersecurity* refers to the collection of tools, policies, risk management approaches, actions,
21 training, best practices, assurance and technologies that can be used to protect the cyber
22 environment and organization and user’s assets;

23
24 (b) *Cyber warfare* refers to the use of technology to launch attacks on nations, governments and
25 citizens, causing comparable harm to actual warfare using weaponry;

26
27 (c) *Emerging infectious diseases* refer to newly identified diseases and previously unknown
28 infections that have not occurred in humans before due to mutant or resistant strains of a causative
29 organism which cause public health problems either locally or internationally;

30
31 (d) *Health security* refers to the activity required, both proactive and reactive, to minimize the
32 danger and impact of acute public health events that endanger people’s health;

33
34 (e) *Health security interface* refers to public health activities the performance of which involves
35 the security sector such as during outbreak response operations in times of conflicts and wars,
36 events involving the intentional use of chemical or biological agents to cause harm, issues related
37 to mass gatherings like major sporting events, festivals, and regular religious migrations; and
38 activities that may arise in the course of a natural disease outbreak;

39
40 (f) *International health regulations (IHR)* refer to legally binding instruments of international law
41 that set standards and protocols to be observed by states in order to prevent the spread of diseases
42 and other health risks, save lives, protect livelihoods and avoid the unnecessary curtailment of
43 international trade and travel;

44
45 (g) *National action plan for health security (NAPHS)* refers to a country-owned, multi-year
46 planning process that can accelerate the implementation of IHR core capacities and is based on
47 one health and whole-of-government approach for all hazards. It captures national priorities for
48 health security, brings sectors together, identifies partners, and allocates resources for health
49 security capacity development. The NAPHS also provides an overarching process to capture all
50 ongoing preparedness initiatives in a country along with a country’s governance mechanism for
51 emergency and disaster risk management;

52
53 (h) *One-health* refers to an approach or design in implementing programs, policies, legislation,
54 and research in which multiple sectors communicate and work together to achieve better public
55 health outcomes. The areas of work in which a one-health approach is particularly relevant include

1 food safety, the control of zoonoses, and combatting antibiotic resistance;

2
3 (i) *Pandemic* refers to a widespread occurrence of an infectious disease across international
4 boundaries that is usually affecting a very large number of people;

5
6 (j) *Public health emergency* refers to an occurrence or imminent threat of an illness or health
7 condition that:

8
9 (1) Is caused by any of the following:

10
11 (i) Bio terrorism;

12
13 (ii) Appearance of a novel or previously controlled or eradicated infectious agent or
14 biological toxin;

15
16 (iii) A natural disaster;

17
18 (iv) A nuclear attack or accident; or

19
20 (v) An attack or accidental release of harmful chemicals or radioactive materials; and

21
22 (2) Poses a high probability of any of the following:

23
24 (i) A large number of deaths in the affected population;

25
26 (ii) A large number of serious injuries or long-term disabilities in the affected
27 population;

28
29 (iii) Widespread exposure to an infectious or toxic agent that poses a significant risk of
30 substantial harm to a large number of people in the affected population;

31
32 (iv) International exposure to an infectious or toxic agent that poses a significant risk
33 to the health of citizens of other countries; or

34
35 (v) Trade and travel restrictions;

36
37 (k) *Public health risk* refers to an event:

38
39 (a) That might adversely affect the health of human populations; and

40
41 (b) That satisfies any one or more of the following conditions where the health effects
42 of the event might:

43
44 (i) spread within the Philippines;

45
46 (ii) spread between the Philippines and another country;

47
48 (iii) spread between two (2) other countries; or,

49
50 (iv) present a serious and direct danger to public health;

51
52 (l) *Re-emerging infectious diseases* refer to diseases which are known and have occurred
53 previously but affected only small numbers of people in isolated areas or were once major health
54 problems but have fallen to levels so low that they were no longer considered a public health
55 problem. Re-emerging infectious diseases often reappear in epidemic proportions; and,

1
2 (m) *Zoonoses* refer to infectious diseases caused by an infectious agent, such as a bacterium, virus,
3 parasite, or prion that has transferred from an animal to a human.
4

5 **SEC. 4. *National Action Plan.*** – There shall be established a Philippine Health Security National Action
6 Plan (PHSNAP) to strengthen the country’s institutional capacity to implement disease prevention,
7 surveillance, control, response systems and contingency plans to deal with public health events and
8 emergencies, including deliberate release of biological or chemical agents intended to harm civilian
9 populations or attack to the health care delivery system.
10

11 **CHAPTER II**
12 **PHILIPPINE HEALTH SECURITY COUNCIL**
13

14 **SEC. 5. *Creation.*** – There is hereby created the Philippine Health Security Council (PHSC), which shall
15 be an inter-agency body administratively attached to the Department of Health (DOH) and tasked to
16 formulate and update the PHSNAP. It shall review all existing national programs, plans, and activities
17 pertinent to health security and public emergency, identify and prioritize activities, and implement
18 evidence-based actions for sustainable capacity development to improve IHR capacities in health systems
19 for health security.
20

21 **SEC. 6. *Powers and Functions.*** – The PHSC shall have the following powers and functions:
22

- 23 (a) Formulate and operationalize the PHSNAP in collaboration with relevant government agencies,
24 civil society organizations (CSOs), and other stakeholders;
25
- 26 (b) Establish partnerships with foreign and international organizations that enable the generation and
27 exchange of vital information through collaborative activities in research, data collection, and the
28 provision of essential services;
29
- 30 (c) Prepare the policies and guidelines for the effective and efficient implementation of the PHSNAP;
31
- 32 (d) Institute efficient mechanisms to ensure the security of medical devices and hospital networks
33 and prevent cyber-related breaches that may affect the operation of medical devices and
34 compromise the integrity of health-related information;
35
- 36 (e) Ensure adherence by national government to the Philippines’ commitment to the IHR 2005
37 of the WHO and take appropriate actions based on the IHR Joint External Evaluation
38 recommendations and the present situation of the country;
39
- 40 (f) Authorize concerned agencies to purchase, store, or distribute anti-toxins, serums, vaccines,
41 immunizing agents, antibiotics, and other pharmaceutical agents or medical supplies and devices
42 considered advisable in the interest of preparing for or controlling a public health emergency,
43 with the right to take immediate possession thereof;
44
- 45 (g) Monitor, assess, and evaluate the implementation of the PHSNAP;
46
- 47 (h) Source funds for the PHSNAP;
48
- 49 (i) Accept donations, whether from local or foreign sources, and ensure that funded programs are
50 aligned to the national response;
51
- 52 (j) Recommend to Congress the enactment of policies vital to the maintenance of health security and
53 ensure that all executive policy issuances are aligned with the PHSNAP;
54
- 55 (k) Assist Local Government Units (LGUs) in the formulation of their respective Health Security

1 Local Action Plans (HSLAP) in accordance with Chapter III hereof;

2
3 (l) Facilitate and support health security initiatives and activities of the LGUs; and

4
5 (m) Submit an annual report to the Office of the President and the Congress.

6
7 The member agencies of the PHSC under Section 7 of this Act shall formulate and implement
8 their respective action plans pursuant to the PHSNAP.

9
10 The Chairperson of the PHSC may call upon any government office or instrumentality, including
11 government-owned or-controlled corporations, government financial institutions, LGUs, non-government
12 organizations, and the private sector for assistance during public health emergencies or as the
13 circumstances may require.

14
15 The Chairperson of the PHSC may recommend to the President the enlistment of the Armed
16 Forces of the Philippines to supplement the Philippine National Police and other law enforcement
17 agencies for the purpose of enforcing the quarantine of specific areas or facilitating the transport of
18 emerging infectious disease patients, and for such other purposes for the effective implementation of this
19 Act.

20
21 **SEC. 7. *Membership and Composition.*** – The PHSC shall be composed of the following:

22
23 (a) Secretary of Health;

24
25 (b) Secretary of National Defense;

26
27 (c) Executive Secretary;

28

PUBLIC HEALTH EMERGENCY

SEC. 12. Declaration of State of Public Health Emergency. – The President, upon the recommendation of the Secretary of Health, may declare a State of Public Health Emergency. The basis for such a declaration shall be made public by the PHSC through the mass media and a written report shall be submitted to both Houses of Congress.

The State of Public Health Emergency shall last for a period of sixty (60) days, unless extended or terminated earlier by the Council.

During the State of Public Health Emergency, the PHSC may exercise, in coordination with national government agencies, local governments, and other organizations responsible for the implementation of the PHSNAP, the following powers:

- (a) To direct and compel the evacuation of, or to decontaminate or cause to be decontaminated, or to close any facility of which there is reasonable cause to believe that it may endanger the public health;
- (b) To require privately-owned health care facilities to provide services or to allow the use of their facilities within reasonable and necessary grounds for emergency response to a public health emergency; and,
- (c) To control, restrict and regulate the use and rationing of pharmaceutical agents and/or medical supplies and equipment it considers essential during a public health emergency.

CHAPTER V MISCELLANEOUS PROVISIONS

SEC. 13. Creation of Health Security Advisory Group. - A Health Security Advisory Group (HSAG) shall be established as an advisory body to the PHSC and the President of the Philippines on matters of health security. The HSAG shall consist of former health secretaries, public health specialists, Filipino scientists and scholars, and other health professionals and experts that the PHSC may deem necessary. All members who shall be appointed to the HSAG must be of good moral character and of recognized probity and independence, and have no pending case or criminal and administrative record.

SEC. 14. Appropriations. – The amount necessary to carry out the provisions of this Act shall be included in the annual General Appropriations Act.

SEC. 15. Annual Report. – The PHSC, through its Chairperson, shall submit an annual report to the Office of the President, the Senate, and the House of Representatives, within the first quarter of the succeeding year.

SEC. 16. Implementing Rules and Regulations. – The Secretary of Health shall, in consultation with the members of the PHSC, issue the necessary rules and regulations for the effective implementation of this Act within ninety (90) days from its effectivity.

SEC. 17. Congressional Oversight Committee. – There is hereby created a Congressional Oversight Committee which shall monitor and review the proper implementation of this Act composed of five (5) members from the Senate of the Philippines and five (5) members from the House of Representatives with the Chairpersons of the Committees on Health of both the Senate and the House of Representatives as joint Chairpersons of this Committee. The four (4) other members from each Chamber are to be designated by the Senate President and the Speaker of the House of Representatives, respectively. The minority shall be entitled to proportional representation but shall have at least one (1) representative from each Chamber.

1 **SEC. 18. *Repealing Clause.*** – All laws, decrees, orders, issuances and rules and regulations or parts
2 thereof inconsistent with the provisions of this Act are hereby repealed or modified accordingly.
3
4 **SEC. 19. *Separability Clause.*** – If any provision of this Act shall be held unconstitutional or invalid, the
5 other provisions not otherwise affected shall remain in full force and effect.
6
7 **SEC. 20. *Effectivity.*** -This Act shall take effect fifteen (15) days after its publication in the
8 *Official Gazette* or in a newspaper of general circulation.

Committee Chairperson: **HON. ERIC GO YAP**

OBJECTIVES:

- To strengthen the institutional capacity of the government to implement disease prevention, surveillance, control, and response systems, and contingency plans to deal with public health events and emergencies, including the deliberate release of biological or chemical agents intended to harm civilian populations, or to attack the health care delivery system.

KEY PROVISIONS:

- Creates the Philippine Health Security Council (PHSC), which shall be an inter-agency body administratively attached to the Department of Health (DOH) mandated to formulate the Philippine Health Security National Action Plan (PHSNAP), which shall serve as the framework for the government’s response to public health emergency;
- Requires the PHSC to review all existing national programs, plans, and activities pertinent to public health emergencies, identify and prioritize activities, and implement evidence-based actions for the development of capacities for health security and health systems development;
- Grants the PHSC the following powers and functions, among others:
 - (a) Formulate and operationalize the PHSNAP in collaboration with relevant government agencies, civil society organizations (CSOs), and other stakeholders;
 - (b) Strengthen partnership with foreign and international organizations, including data collection, research, and other essential programs and services;
 - (c) Prepare the guidelines and policies for the effective and efficient implementation of the PHSNAP; and
 - (d) Strengthen public health emergency preparedness to ensure efficient government response to assess, monitor, contain, control, and prevent the spread of any potential epidemic in the Philippines.

- Establishes a Regional Health Security Council in every administrative region of the country which shall be responsible in the development and implementation of the Health Security Regional Action Plan;
- Creates a Health Security Advisory Group as an advisory body to the PHSC and the President of the Philippines on matters of health security.

RELATED LAWS:

- Republic Act No. 11332, otherwise known as the “Mandatory Reporting of Notifiable Diseases and Health Events of Public Concern Act.”
- Republic Act No. 11223, otherwise known as the “Universal Health Care Act”
- Republic Act No. 10121, otherwise known as the “Philippine Disaster Risk Reduction and Management Act of 2010”
- Republic Act No. 9271, otherwise known as “Quarantine Act”
